Location

Singapore

Since 2012, Bedell Cristin's partner-led office in Singapore has been supporting clients across South East Asia as a gateway to our legal services in the BVI, the Cayman Islands, Guernsey and Jersey.

What we do

Bedell Cristin was one of the first offshore law firms to establish a presence in Singapore, and for more than a decade we have been supporting clients in Singapore and Asia on matters of offshore law.

Our lead partner in Singapore has experience of working in London, BVI and Jersey and worked in leading UK and US law firms before moving offshore.

Our Singapore office provides solutions in relation to corporate law, fund formation, corporate governance, joint ventures and finance matters and works in close collaboration with our teams across our four offshore jurisdictions and London, who together provide the full array of corporate, finance, funds, private client and dispute resolution expertise.

Who we work with

We work closely with clients and their intermediaries in Singapore and the wider Asia Pacific, including family offices, fund managers, asset managers, corporations, lenders, insolvency practitioners, consulting firms and international and regional legal counsel.

Unlike many offshore law firms, we are fully independent – we are not tied to a particular fiduciary or administrative services provider, allowing our clients the flexibility and freedom in selecting service providers.

> *Bedell Cristin have deep litigation experience and have demonstrated an understanding of legal practice in other parts of the world that has been valuable.*
>
> LEGAL 500

> *They are technically very capable across all jurisdictions and they are able to handle the most complex matters.*
