Expertise

Corporate

Renowned for a pragmatic, solution oriented approach, our highly experienced corporate teams provide BVI, Cayman Islands, Guernsey and Jersey legal advice on a range of international and local corporate transactions.

What we do

At Bedell Cristin, our expertise spans all aspects of offshore corporate advice across the laws of BVI, the Cayman Islands, Guernsey and Jersey. We understand the demands and timescales of international corporate work, and are recognised for our partner-led, personal and highly responsive offering.

Our teams are regularly chosen to advise on complex, high-value and cross-jurisdictional deals. We work with clients on corporate matters including M&A transactions, joint ventures, reorganisations, IPOs and corporate governance advisory mandates across a variety of industries and regions.

With offices in London, Abu Dhabi and Singapore as well as our four legal jurisdictions, we are plugged into market dynamics and are able to add value to clients through our long experience both offshore and onshore.

Who we work with

Our clients include institutional and private investors, funds, companies, directors, management and other advisers and intermediaries. We often work alongside major onshore law firms on headline, international corporate deals.

We also work with a wide range of regulated trust company service providers and, unlike many offshore law firms, we are fully independent – we are not tied to a particular fiduciary or administrative services provider.

We also regularly act as lead counsel on M&A and other corporate mandates for businesses based in our own jurisdictions, complemented by our full service practice covering specialist areas including regulatory, finance, employment, litigation and property.

> *The collaboration is excellent, the team was always on hand to advise and went the extra mile to ensure our plan and timeline were achieved.*
